

Indigo Ag US Project No. 1 (CAR1459)  
 Reporting Period 3  
 Issued February 2024

LEGEND  
 Items that increase total credits issued  
 Items that decrease total credits issued

Note: Some rounding occurs at the vintage level, so not all of the operations depicted here work out exactly as shown.

- A. SOC emission reductions, adjusted for uncertainty
- B. Adjust SOC reductions for leakage
- C. Buffer pool contribution
- D. Non-reversible emission reductions, adjusted for leakage and uncertainty
- E. Total credits to be issued
- F. Deduction of buffer pool credits

These data can also be found in the CAR1459 Monitoring Report v3.6, available for download from the Climate Action Reserve public registry.
